EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification,

~~line 3: "divisional" has been changed to --continuation in part--~~ since new matters such as new drawings figures 7-10 and their respective description have been added to this application, which were not present in the parent.

On page 9 of the specification,

line 21: "60" has been changed to --34--;

line 23: "60" has been changed to --68--; and

line 28: "60" has been changed to --68--.

On page 10 of the specification,

line 1: "60" has been changed to --68--.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance: none of the prior art of record alone or in combination teaches a substance applying apparatus for applying a substance to an application location as claimed comprising an application element with an applicator being partially received in an inner tube made of soft material, the inner tube is being received in an outer tube; wherein upon application of pressure on the application element would apply pressure on the soft inner tube and therefore causes the bottom thereof to be cut and allows a fluid communication between the inner space of the inner and outer tubes.

Art Unit: 3751

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Strauss, Gueret, and Salz et al. are references have been cited in the parent application 10/114,203, which lack the claimed features as indicated above. Sogaro teaches a telescoping ampoule but lacks the claimed features as indicated above. Parkin discloses a swab applicator with pierce inner tube but lacks the claimed features as indicated above.
